AQUATEK CO2 SYSTEM

DELUXE AQUATEK CO2 Regulator with Integrated Solenoid

Model Name: AQT-REG DELUXE
- Cool-touch, industrial solenoid design
- Brass constructions for long-lasting durability and dependability
- Precision output working pressure adjustment knob: 140 PSI Max
- Flowmeter - from 0.5 to 15 SCF/hour
- Precision needle valve for fine tuning release of CO2
- 110 and 220 volt universal power design complete with 6-foot cable
- Includes 16-foot detachable 1/4 inch CO2 gas line

PREMIUM AQUATEK CO2 Regulator with Integrated Solenoid

Model Name: AQT-REG PREMIUM
- Cool-touch, industrial solenoid design
- Brass constructions for long-lasting durability and dependability
- Precision output working pressure adjustment knob: 140 PSI Max
- Precision needle valve for fine tuning release of CO2
- Includes bubble counter with integrated check valve
- Compatible with most high density tubing
- Compatible with most CO2 atomizer and diffuser
- 110 and 220 volt universal power design complete with 6-foot cable

AQUATEK CO2 Regulator with Integrated Solenoid for Paintball Tank

Model Name: AQT-REG Paintball
- Connect to paintball CO2 tank, no adapter required
- Cool-touch industrial solenoid design
- Precision needle valve for fine tuning release of CO2
- Include bubble counter with integrated check valve
- Compatible with most CO2 atomizer and diffuser
- Compatible with 1/4 inch CO2 gas line and most high density tubing
- Bottle Pressure Gauge: 3,500 PSI Max
- Reduced Pressure Gauge: 140 PSI Max
- 110 and 220 volt universal power design
- Heavy duty electronic cabling

AQUATEK CO2 Bubble Counter with Integrated Check Valve (R-131)

Model name: AQT-BCR131
- Built-in check valve prevents back-siphoning and protects CO2 system and air pump equipments from water damage
- Integrated bubble counter for accurate airflow measurement
- Air tube clip ensures secure air tube connection and continuous air-flow
- Prevents flooding during power outage
